

PHASE 0: FOUNDATION

Goal: Get something usable internally (not public yet)

These are non-negotiable backend basics.

Core Features

- User registration (Parent, Therapist, Admin)
- Login / Logout
- Basic profile setup
- Role-based access (very important)
-

PHASE 1: MVP LAUNCH

1. Parent Dashboard (HIGH PRIORITY)

- Add child profile
- View child details
- Basic progress tracking (simple, not complex charts yet)

2. Therapist Dashboard (HIGH PRIORITY)

- View assigned children
- Add session notes
- Basic goal tracking

3. Session Notes System (CRITICAL)

- Date
- Goals worked on
- Observations
- Recommendations

4. Intake Form (CRITICAL)

- Developmental history
- Behaviour concerns
- Parent goals

- **. Basic Behaviour Tracking (HIGH PRIORITY)**

- Select behaviour
- Frequency count
- Notes

Keep it SIMPLE for MVP.

6. Admin Panel (BASIC VERSION)

- View users
- Approve therapists
- Assign therapist to child

7. Messaging (SIMPLE VERSION)

- Parent ↔ Therapist chat (text only)

8. Simple Dashboard View

- List of sessions
- Basic progress (no heavy analytics yet)

At the end of Phase 1:

You can:

- onboard clients
- run therapy digitally

- track sessions
- communicate

PHASE 2: PRODUCT IMPROVEMENT

Goal: Make the platform more powerful and professional

1. Advanced Progress Tracking

- Graphs (behaviour trends)
- Skill mastery percentages

2. Intervention Plan Builder

- Behaviour Intervention Plan (BIP)
- Goal setting templates

3. File Upload System

- Upload reports
- Upload videos

- Upload assessments

4. Notifications System

- Session reminders
- New message alerts
- Report updates

5. Therapist Profiles

- Public profile
- Specialization
- Experience

6. Resource Library (Parent Support)

- Articles
- Videos
- PDFs

PHASE 3: BUSINESS FEATURES

Goal: Start generating revenue + scale

1. Booking System

- View therapist availability
- Schedule sessions

2. Payments Integration

- Mobile Money (VERY important in Ghana 🇬🇭)
- Card payments

3. Subscription Plans

- Monthly therapy plans
- Pay-per-session

4. Reports Generator

- Auto-generate:
 - Progress reports
 - Therapy summaries

PHASE 4: SCALE & DIFFERENTIATION (Month 4+)

Goal: Become a leading platform in Africa

1. School Dashboard

- Teacher input
- Classroom tracking
- Collaboration tools

2. AI Features (Your Competitive Advantage)

- Auto session notes suggestions
- Behaviour insights
- Goal recommendations

3. Teletherapy (Video Sessions)

- Built-in video calls

4. Multi-language Support

- English
- Local languages (Twi, etc.)

. Mobile App

- For parents and therapists

PRIORITY SUMMARY (VERY IMPORTANT)

MUST HAVE (Build First)

- User accounts
- Child profile
- Session notes
- Intake form

- Behaviour tracking
- Messaging
- Admin panel

SHOULD HAVE (Next)

- Progress charts
- Notifications
- File uploads
- Resource library
-
-
-

NICE TO HAVE (Later)

- Payments
- AI
- Schools
- Video
